# CS 550 - Intro to computer graphics
Project - 1 - Draw something cool 3D

1. **Name** - Lakshman Kruthik Manubolu

2. **OSU ID** - 934480655

3. **Email** - manuboll@oregonstate.edu

4. I have created a table which has a book on the top, with 5 colours, 112 vertices and it can also rotate and scale. I have created a table with brown colour on the top and bottom part of the table. Grey for the sides of the table. Complete yellow colour for the legs. Book has blue colour on the top and bottom, white on three sides and black on the left side just to give the highlight that it looks like an actual book.

5.
